

POP

PICK ONE AND PUSH

Finding homes for all, one by one

Make a difference, one life at a time...

Stray Rescue's POP (Pick One & Push) program offers businesses, schools, and community groups an incredibly rewarding way to make a huge difference in the lives of homeless companion animals by finding them loving forever homes. In the POP program, a group is assigned a specific adoptable Stray Rescue dog or cat. The singular goal of the program is for each participating group to take responsibility over their companion animal, using the tools and resources available through the program in order to increase shelter pet adoptions. Not only will you make a difference by ensuring a four-legged friend a life filled with comfort, warmth, and love, but the program also encourages teamwork, advocacy, and communication!

Here's how you can help in 3 easy steps!

STEP 1:

Register your club at homelesspetclubs.org by clicking "START A CLUB", and choose your club type. Once approved, we will respond right away with your POP program companion!

STEP 2:

PUSH! This is your group's chance to push your adoptable dog or cat and find him or her a loving home! We will send you a bio, pictures, and adoption information to use in promoting your buddy to the community by using emails, flyers, social media, website postings, newsletters, and more!

STEP 3:

Now for the REALLY fun part! You have worked hard to find your companion a loving home, and now he or she has been adopted! Remember, helping to get your POP pet adopted means that our rescuers can take in another companion animal off the streets. Your group will be highlighted on our website and, once you've reached your goal, we can assign you another homeless pet. Pick One, Push, & Repeat!

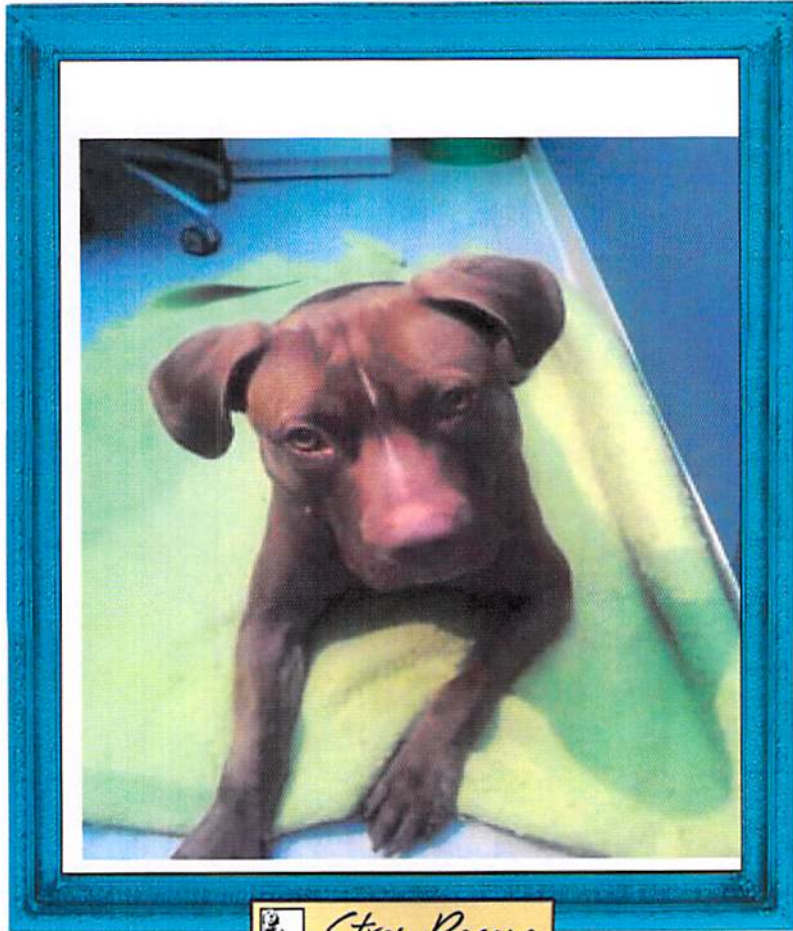

Stray Rescue is partnering with Homeless Pet Clubs to make the POP program an even bigger success. Please visit homelesspetclubs.org to sign up today! If you have questions please call Stray Rescue of Saint Louis at 314.771.6121

OF ST. LOUIS

Sasha

GENDER: Female BREED: Terrier Mix SIZE: 50 lbs AGE: 1 year

Sasha has an adorable face that melts everyone's heart. She came to Stray Rescue with a broken leg, but now she is doing so well that she runs and plays with ease.

Sasha has lots of energy and loves to play. Recently she got to go on a five mile hike with her shelter friends, and she discovered that hiking is even more fun than walking. Sasha proved to be a great hiker even up the steep hills. She was happier being in the back of the pack where she could watch the other dogs. Sasha still has lots of things to learn. Lying down for the hiking breaks was not for Sasha. She preferred rolling in the leaves and burying her face in them. Besides hiking, Sasha would like everyone to know that she adores belly rubs and ear scratches.

Sasha, at the age of only one, is ready to start her life as an adult dog. She just needs someone who will love her to pieces, show her what she needs to know, and give her endless belly rubs. Sasha is pretty sure that person is you.
